Thursday, August 18  
Classes A-IR1

### A. BASIC LOCKSMITHING

**Jerry Levine**  
**Locksmith Ledger**  
**Thursday, August 18**  
**8:00 A.M. – 5:00 P.M.**  
**Cost: \$125**

This class will discuss the operation of pin tumbler, wafer tumbler, and wafer side bar lock mechanisms. We will cover the various types of locks including automotive utility and commercial & residential door locks, their key operation, key origination, and duplication. Handed lock hardware will be discussed along with how to determine the hand of the door. The key blank identification portion will include a discussion of original equipment key blanks, the various aftermarket options, and substitutions. Key origination and duplication will include how-to, as well as types of key machines and cutters. The class will cover basic keying, including keyed-alike, keyed-different, and master keyed. Key codes will be discussed, including standard, direct-digit, two part, derivative, and silhouette codes.

Hands-on portion will include:

- Key blank identification
- Servicing wafer tumbler and pin tumbler locks
- Re-combinating wafer tumbler locks
- Re-combinating pin tumbler locks
- Shimming pin tumbler locks
- Filing a key blank to operate a pin tumbler lock
- Removing and installing key-in-knob (lever) locks
- Key reading

Required Materials: Clamp-on table vise, small Phillips head and small straight slot screwdrivers, minimum 8" long fine metal round file and flat file, locking pliers, a dial caliper, and a magnifying glass.

Maximum class size: 25.

Approved for 1 point toward the ALOA PRP recertification requirements.

### B. ELECTRONIC ACCESS CONTROL SYSTEM SPECIFICATION & INSTALLATION

**Dawn Mavity**  
**CLARK Security Products**  
**Thursday, August 18**  
**8:00 a.m. – 5:00 p.m.**  
**Cost: \$125**

This class is designed for those who have a basic understanding of electronic access control. Attendees will learn which products to use in a variety of applications, as well as techniques for installing electronic access control systems. This course will include how to read and draw wiring diagrams and identify obstacles during the site survey process to avoid added labor costs.

Maximum class size: 18.

Approved for 1 point toward the ALOA PRP recertification requirements.

### C. KABA ILCO: AUTOMOTIVE KEY SOLUTIONS

**Jim Lenters**  
**Kaba Ilco**  
**Thursday, August 18**  
**8:00 a.m. – 12:00 p.m.**  
**Cost: \$30**

Are you new to the Automotive Market, or are you an expert in this field already? Either way, this Kaba Ilco class will give you the latest information you need to be involved in this fast growing market segment. In this class, you will learn about On Board Programming, Cloning, and the Origination process. Newly released equipment directly related to the Automotive Market will also be shown and demonstrated. Students will also receive a lot of useful take-home material about the automotive field. Make sure that you don't miss this opportunity!

Approved for .5 point toward the ALOA PRP recertification requirements.

### D. INTERNET MARKETING: POWER TOOLS FOR PROMOTING YOUR BUSINESS

**Michael Meyer**  
**All About Locks & Safes**  
**Thursday, August 18**  
**8:00 a.m. – 12:00 p.m.**  
**Cost: \$60**

Use the Web to promote your business with minimum investment! We will cover why you need a website, the three major parts of a search engine, and how to get your business a better ranking with search engines, tips for Google Places, online advertising, social networking, and more.

This class is designed for business owners who want to manage their own business online or want a better understanding of how online advertising and promotion of a business works.

Approved for .5 point toward the ALOA PRP recertification requirements.

### E. LOW VOLTAGE ELECTRICITY FOR INSTALLERS

**Mark McBroom**  
**Hes, Securitron, and Adams Rite**  
**Thursday, August 18**  
**1:00 p.m. – 5:00 p.m.**  
**Cost: \$65**

This class will include demonstrations and hands-on usage of a multimeter with 9 volt batteries, test exercises, and live circuits.

This course will cover:

- The origin and history of electricity in the US
- Voltage, current and resistance and their effects in circuits
- AC and DC electricity
- Ohm's law and how it affects electrified hardware
- Wire selection and run lengths
- Electrical circuits as used in the access control industry
- Electrical components
- Access control components
- Multimeters: types and use
- Troubleshooting techniques – the 5 steps to troubleshooting strikes
- Symptom / fault / action with root cause analysis techniques
- Wiring diagram types and drawings
- Technical support phone numbers and web site technical information

Approved for .5 point toward the ALOA PRP recertification requirements.

**Sacramento Branch**

## F. KABA ACCESS: STAND-ALONE ACCESS CONTROL SOLUTIONS

**Jim Lenters**

**Kaba Ilco**

**Thursday, August 18**

**1:00 p.m. – 5:00 p.m.**

**Cost: \$30**

Are you new to the Stand-Alone Access Control Market, or are you well traveled in this segment already? One way or another, this class will open up a whole new approach to this expanding market. Who has the only non-battery operated, stand-alone lock in this market? Kaba Access, of course! Learn about this new, GREEN-friendly EPS lock that is creating a lot of stir. Are you also looking for wireless applications for your customer base? Yep, we have that covered, too! So, sign up for this class and get on board with the new products from Kaba Access. Literature and demonstrations are all part of this class!

Approved for .5 point toward the ALOA PRP recertification requirements.

## G. IP SECURITY CABLING

**Joel Simpao**

**CLARK Security Products**

**Thursday, August 18**

**5:30 p.m. – 8:00 p.m.**

**Cost: \$40**

This class will cover the cabling necessary for all IP related access control and CCTV. IP based CCTV and Access Control is quickly becoming the standard in the security industry. Now is the time to acquire this skill!

Topics covered include:

- Network cabling and why it is important to security
- How network cabling works
- Cable types – all cable and wire are not created equal
- Cable installation & termination
- Using network cabling for access control and video surveillance
- Hands-on labs featuring connector terminations, jack terminations, and RJ45 jacks

CLARK will provide tools to use for the hands-on portion of the class.

Great deals on cabling tools will be available to class attendees only!

Approved for .25 point toward the ALOA PRP recertification requirements.

## H. RETIREMENT PLANNING STRATEGIES

**Todd Faro**

**Green's Security Centers**

**Thursday, August 18**

**6:00 p.m. – 8:00 p.m.**

**Cost: \$60 per couple**

Do you know what your 401K, Pension, IRA (or any other retirement plan you have) will produce in after-tax dollars at retirement? Learn the secrets that Wall Street, the insurance companies, and the government don't want you to know. You will be shown how to double your after-tax retirement income without increasing your contributions. We will discuss how to increase your social security by up to 50% without increasing your income. Don't miss this class! Family members and friends are welcome, so sign-up now as space is limited.

Approved for .25 point toward the ALOA PRP recertification requirements.

## I. COMPX: NEW ELOCK® & STEALTHLOCK™ OVERVIEW

**David Dodd**

**CompX Security Products**

**Thursday, August 18**

**6:00 p.m. – 8:00 p.m.**

**Cost: \$20**

Get hands-on experience with two of the latest products to secure cabinets: the StealthLock™, a keyless, invisible security for wood cabinetry, and the new network capable cabinet CompX eLock®. Radio frequency permits the StealthLock™ transmitter pad to be stored anywhere within the vicinity of the cabinet (up to 15'), giving a clean and hardware free design. You will learn about the four modes of operation that provide flexibility and the broad range of uses in almost any wood cabinet. You'll also learn how the newest wireless or Ethernet eLock® provides unprecedented access control for cabinets and other storage areas.

Approved for .25 point toward the ALOA PRP recertification requirements.

## J. MASTER LOCK: THE BUMP STOPS HERE

**Billy Edwards**

**Master Lock/American Lock**

**Thursday, August 18**

**6:00 p.m. – 8:00 p.m.**

**Cost: \$20**

A two-hour, hands-on training class that will

familiarize you with lock bumping techniques and the new BumpStop™ technology available in Master Lock products. Students will learn how bumping works, the technique, and will bump locks made with and without the new BumpStop™ technology. Each student will get to keep the Factory-made Bump Key.

Approved for .25 point toward the ALOA PRP recertification requirements.

## IR1. ALL ABOUT VON DUPRIN EXIT DEVICES

**Please note: This class is located at the IR/Trane Facility**

**Michael Murray**

**Ingersoll Rand**

**Thursday, August 18**

**9:00 a.m. – 3:00 p.m.**

**Cost: \$15**

We will cover all facets of the Von Duprin product line including how to wire an EL device, working with the Chex-it device, which product is right for your application, power supplies, and wiring diagrams. This class is hands on. Lunch will be provided.

Approved for 1 point toward the ALOA PRP recertification requirements.

## Friday, August 19 Classes K-IR2

## K. LOCK PICKING, KEY BUMPING, LOCK IMPRESSIONING

**Jerry Levine**

**Locksmith Ledger**

**Friday, August 19**

**8:00 a.m. – 5:00 p.m.**

**Cost: \$125**

This three-part, eight-hour class will provide hands-on experience in methods of gaining entry when no key is available. The class will begin with an overview of how a lock operates, along with a discussion of tolerances and how it provides the ability to gain access without having an operating key. This class consists of three hands-on portions:

LOCK PICKING – Lock picking theories will be discussed. This includes the differences between pin tumbler, wafer, and wafer side bar locks, as

Con't on next page.

**Sacramento Branch**

1107 Terminal St.  
W. Sacramento, CA 95691

800.245.3003 • phone

916.372.7221 • fax

[www.clarksecurity.com](http://www.clarksecurity.com)

Recyclable

well as the differences between picking and raking. Why pick a lock? You will learn about picking locks with ball bearings, mushroom, serration pins, spool pins, and electric and manual pick guns. Discussion includes how to modify picking tools to pick locks with more control and the advantages and disadvantages of picking locks. This hands-on portion will involve pin tumbler locks for actual picking experience.

**KEY BUMPING** – Key bumping is an old technique that has been sensationalized in the media. We will discuss the truth of key bumping, how it works, and the different types of lock mechanisms that can and cannot be key bumped and why. This hands-on portion will include key bumping locks.

**LOCK IMPRESSIONING** – This hands-on section will teach the fine art of lock impressioning. Students will leave the class having impressioned pin tumbler and wafer locks. In addition, the discussion will include how a lock operates and its tolerances. Different impressioning theories will also be discussed. Key blank materials and key blank preparations for different types of locks to be impressioned will be demonstrated. Required Materials: Attendees must bring a clamp-on table vise, magnifying glass, a pair 3" or 6" vise grip pliers or clamping type pliers, an eight inch (8") fine metal pippin or round impressioning file, an eight inch (8") fine metal flat file, and a set of picking tools.

Maximum class size: 25.

Approved for 1 point toward the ALOA PRP recertification requirements.

## L. FIRE & LIFE SAFETY CODES

**Dawn Mavity**  
**CLARK Security Products**  
**Friday, August 19**  
**8:00 a.m. – 5:00 p.m.**  
**Cost: \$125**

This class focuses on N.F.P.A. 80-2010, N.F.P.A. 101-2009, and I.B.C. 2009. It will include a discussion on the Functional Testing requirement described in NFPA 80-2010, common problems found in the field, as well as "best practices" for specifying and installing hardware. The class will focus on national requirements and recommendations.

Maximum class size: 30.

Approved for 1 point toward the ALOA PRP recertification requirements.

## M. BUSINESS MANAGEMENT TACTICS: MAKING MONEY WHILE HAVING FUN

**Rick Estes**  
**Trine Access Technology**  
**Friday, August 19**  
**8:00 a.m. – 12:00 p.m.**  
**Cost: \$40**

Do you feel like you can get nothing done in your day? Does your "To-Do" list keep growing? Is your business running you? If you answered yes to any of these questions, this class is for you. I will teach you how to get more from your business with less. We will go over goal setting, time management, training others and, most importantly, learning how to have fun again. This class is for anyone that wants to get ahead!

Approved for .5 point toward the ALOA PRP recertification requirements.

## N. ALARM LOCK DL WINDOWS – T3/NETWORX™ & NEW NETPANEL

**Bob Swoope**  
**Alarm Lock**  
**Friday, August 19**  
**8:00 a.m. – 10:00 a.m.**  
**Cost: \$20**

This hands-on class will cover all aspects of DL Windows Software programming, including setting up a system with users, time zones, schedules, and running an audit trail for our T3 and Networx™ products. From a computer, we will send/ receive programming for both the T3 and Networx™ products. As if it were an actual emergency situation, we will demonstrate the Networx™ Global Emergency Commands to issue a "lock down" of all locks within the system from a PC and/ or from any lock within the system. The Global Emergency Commands can also be used to "unlock" all locks within the system from a PC or from any lock within the system. We will also introduce the new NetPanel 2-Door Controller.

*Note: It is highly recommended that students bring laptops to class. We will load complimentary software on PC's so students can follow along for step-by-step programming instructions.*

Approved for .25 point toward the ALOA PRP recertification requirements.

## O. ADVANCED DIAGNOSTICS: CURRENT UPDATES & CAPABILITIES

**Tony Presidio**  
**Advanced Diagnostics**  
**Friday, August 19**  
**10:30 a.m. - 12:30 p.m.**  
**Cost: \$20**

Are you up-to-date on the latest transponder and cloning equipment? Don't miss out on this great opportunity to get current information about the automotive industry. Tony Presidio, Director of North American Sales, will offer general information and an overview of the product line.

The following topics will be discussed:

- Introduction to complete product line
- Individual overview of products
- Online resources
- Hardware and products review
- Reference material and manuals overview
- Product fit
- Open discussion and feedback

Approved for .25 point toward the ALOA PRP recertification requirements.

## P. JOB SITE FROM BEGINNING TO END: ELECTRIC STRIKES & ASSOCIATED HARDWARE

**Rick Estes**  
**Trine Access Technology**  
**Friday, August 19**  
**1:30 p.m. – 5:00 p.m.**  
**Cost: \$30**

This class will cover the importance of electric strikes and their uses. We will also go through the sales presentation, the walk-through, "add on's" that make sense and money, proposal, installation, and follow-up. This class is for owners, installers, and sales people who want to make more money and generate better sales.

Approved for .5 point toward the ALOA PRP recertification requirements.

## Q. PRICING FOR PROFITS

**Todd Faro**  
**Green's Security Centers**  
**Friday, August 19**  
**1:00 p.m. – 5:00 p.m.**  
**Cost: \$125**

This class will teach you how to unlock hidden profits in your business. Find out why customers buy and how to make your products and services more appealing. Previous attendees have reported over an 80% increase in net profits after attending this class. This course will help improve your business and your bottom line, guaranteed!

Approved for .5 point toward the ALOA PRP recertification requirements.

## IR2. LCN DOOR CLOSERS: FROM MECHANICAL TO AUTO OPERATORS

**Please note: This class is located at  
the IR/Trane Facility**

**Michael Murray**  
**Ingersoll Rand**  
**Friday, August 19**  
**9:00 a.m. – 4:00 p.m.**  
**Cost: \$15**

The first portion of this class will cover the entire LCN mechanical closer lines including, the 4040XP, and the best application for each product. This class will also cover the proper adjustments and care for a LCN closer, including installation tips and tricks. The second portion of this class will be a hands-on training dedicated to LCN auto operators. Each person will learn how to wire all of the auto operators in our LCN product line. Lunch will be provided.

Approved for 1 point toward the ALOA PRP recertification requirements.

Saturday, August 20th

## R. IC CORE SERVICING

**Jerry Levine**  
**Locksmith Ledger**  
**Saturday, August 20**  
**7:30 a.m. – 11:30 a.m.**  
**Cost: \$65**

This discussion and hands-on course is designed to provide locksmiths with a working knowledge of interchangeable core and removable core cylinders. This course will discuss basic operation of various manufacturers' "core" mechanisms, keyway sections, and keys. Attendees will learn about master keying, control keys, and avoiding possible pinning problems. The hands-on portion will include pinning example interchangeable cores. Also discussed are methods and tools for removing cores from their housings, along with ways to decode the master key and control key in existing systems.

Required Material: Tweezers, clamp-on table vise, awl, small straight and Phillips head screwdrivers, small ball-peen hammer, and an ejector tool.

Maximum class size: 20.

Approved for .5 point toward the ALOA PRP recertification requirements.
